**To the Deformed.**—Dr. J. P. MANN is treating suc-  
cessfully the most obstinate cases of DEFORMITY—cases of five to  
twenty years' standing, and those existing from infancy to adult  
age, and where all treatment has proved unavailing. He would  
say to the afflicted, make one more trial. Many who have re-  
garded their case as hopeless as you do yours, have been cured.

Address Dr. J. P. MANN, No. 126 West 29th st. Written  
communications, containing postage stamp, will be promptly an-  
swered.

**READ THE FOLLOWING:**

My son had a white swelling, with a crooked and stiff knee  
joint, and a red crust for eight and a half years. I placed him in  
the case of the joint, and he could not move his limb, and  
without crust or case—Watertown, N.Y., Aug. 22, 1858.

HART MASSEY.

My son Charles had a white swelling of the knee-joint, with  
the joint of the knee, ever since it was a babe, sixteen months old.  
I tried everything without benefit. I then employed Dr. Mann,  
who cured him in a very short time.

Mrs. MARGAR.

Mr. JOHNSON, Syracuse, N.Y.

My son has had a swollen foot for thirteen years. All that  
had been done for him had failed, until I employed Dr. Mann. I  
pray to say he is now well.

Mrs. HANNAH SIMONDS, Syracuse, N.Y.

For four years I have suffered from an inflamed, enlarged and  
deceased knee-joint. I suffered great pain. The joint would  
not move, and I could not walk without crutch or cane, and  
with straight limb. New-York, Oct. 21, 1858. C. E. ADAMS.

My son was born with both lower-limbs deformed. But he  
was perfectly born down to the waist, and his legs were  
so weak that he could not stand. He learned to walk at  
fourteen there was such universal stiffness of the limbs, and re-  
quired such twisting of the spine and inclination of the whole  
body to walk. He is now six years old, and can walk with  
straight limb, and with an elasticity of step which exceeds  
all men of his age.

Let me assure you, after suffering his own, to remain de-  
formed—Seneca Falls, N.Y., 1857. H. C. SILSBY.

I had a deformed and crooked knee-joint for two years.  
I have been advised to undergo an operation, and I am  
now able to have the limb off. Under the care  
of Dr. Mann I steadily improved, and I have now able to walk  
with my leg sufficiently straight, and I have very little pain.

P. F. DILLAWAY, Syracuse, N.Y.

My daughter has walked with a crooked and stiff knee  
joint, and a red crust for eight and a half years. I placed her in  
the case of the joint, and she could not move her limb, and  
without crust or case—Watertown, N.Y., Aug. 22, 1858.
